#### Fabulous debut thriller!

By [Relax and Read Reviews](#) **TOP 1000 REVIEWER** on 7 July 2016

Format: Kindle Edition

The stunning cover was the first thing that attracted me to this book. Whatever the story within, I think I would have read this book blindly just because of its cover. The blurb was then tantalizing enough for me to go ahead. I love the idea of mysteries involving some hidden box of secrets as we have in this case.

"I did something terrible Grace. I hope you can forgive me."

The story revolves around two inseparable friends - Grace and Charlie. Some ten years earlier the two friends buried a box filled with their memories, hopes and dreams in the woods, vowing to be the only ones to reopen it together at some time in the future. However, we know that in the meantime Charlie disappeared for six whole years, then something terrible happened to her and she died. Her last words have haunted Grace ever since. Determined to find out what terrible thing Charlie did to require Grace's forgiveness, Grace starts by finding and reopening the hidden box. Reading through a letter written by Charlie, she discovers that one of her dreams was to find her father. Who was this man? Could he answer some of Grace's questions? Grace decides to try and find him.

"Can you ever really know someone? Properly know someone?"

Soon after setting up a blog to find Charlie's father, Grace and her boyfriend Dan, receive a reply from a young woman called Anna, claiming to be Charlie's half sister. Upon meeting her, Grace is sure this woman is telling the truth and they immediately click and become friends. Grace invites Anna to live with her and Dan till she finds a new job and a place to live. From then on, strange and awful things

**one corker of a physiological thriller which which ticked all the boxes for me giving it an easy 5 stars**

I can't believe this is a debut novel Seriously this book is fantastic. I couldn't wait to get read this after seeing such a brilliant cover reveal, Eye catching or what! The author's unique style of writing totally drew me in, I actually felt like I was in the story with such stunning descriptions. Even the tomato soup, I was straight in the kitchen warming some up for myself, Talk about having an influence over me. that's how draw in I was..

The story starts off very emotional and alternates in two parts, now and then. Where we meet Grace who is grieving for her friend Charlie and hasn't been the same since, which is one of the effects grief has you. After opening an old memory box of Charlie's. It soon becomes clear there was a lot she didn't know about her best friend. Grace decides to go on a mission to find Charlie's father, then we meet Anna who claims to be Charlie's half sister, Making herself at home with Grace and Dan. But it seems something isn't right with Dan what is he hiding?!

Having been sucked in right from the start and I devoured this in one sitting, it is totally gripping, unfolding the mystery with each page I turned by 70% I was OMG I love this and really want to know what's going to happen. The suspense was killing me and I was just itching to find out what was going to happen with all these questions burning inside my head.

This is one corker of a physiological thriller which which ticked all the boxes for me giving it an easy 5 stars.

**A stunning debut novel**

By [Neats](#) on 7 July 2016

Format: Kindle Edition

As soon as I saw the cover for The Sister I knew I had to read it. Look at it, it's gorgeous right? Well the story inside is just as fabulous!

Grace, Charlie and Dan have been friends since primary school but when Charlie unexpectedly dies Grace finds herself haunted by her best friend's last words "I did something terrible Grace. I hope you can forgive me. . ." In a desperate bid to try and find out what Charlie did she goes back to the place where the pair had buried a memory box years before. When she opens the box she finds a wish list written by Charlie and one of the things on her list was to find her father, something her mum, Lexie, was always reluctant to talk about. So Grace decides to track him down thinking that it might lead to answers about the terrible thing Charlie felt she needed forgiveness for.

During a reconciliation with Lexie, Grace finally manages to get the story of how she and Charlie's dad met, along with his name and the fact that he was in a band. Armed with this new information she enlists the help of her long-term boyfriend Dan and they get to work on social media trying to find anyone who has information about his whereabouts.

It's not long before someone contacts them claiming to be Charlie's half-sister. Grace jumps at the chance to meet this mystery woman and they arrange to meet in a local cafe. Enter Anna. Desperate to hold onto any links to Charlie, no matter how tenuous, Grace takes to Anna instantly and moves her into the home she shares with Dan.

Soon after Anna moves in Grace's life starts to spiral out of control. [Read more](#) ›

**Gripping from start to finish!!**

By [karen mace](#) on 7 July 2016

Format: Kindle Edition

A gripping and thrilling debut novel from an author who clearly has a very exciting future ahead if this story is anything to go by! It was one of those books that you can't stop thinking about even when you're not reading it!!

Grace falls apart when her BFF Charlie dies and this story is a clever combination of the Now and Then so we get to see how they first meet, and how the death affects Grace and all those around her.

Her childhood wasn't a pleasant time and she ends up living with her grandparents to try and have a normal childhood and she meets Charlie at school. They grow up together and are there for all those childhood and teenage years and all the fun, and stresses, that they bring. They even bury a memory box together and when Grace notices a pink envelope in there, Charlie refuses to let her open it then and says it can wait for the future and they can open it together - Charlie's death pushes Grace to opening it and she soon finds out that there was a lot about Charlie she didn't know. And what a journey we go on finding out the secrets and deceptions!

There are a number of complex characters that we meet throughout this book and they all have their good and bad points so you often find yourself changing your mind over who you feel sympathy for,

has you right where it wants you. And then, BAM!
